EXTERIOR SLAB SYSTEMS

PRODUCT SELECTION & DESIGN INSPIRATION

With ARTISAN SYSTEMS by SureCrete, the freedom is yours to transform traditional exterior concrete slabs into beautiful & functional surfaces that will "wow" for years to come.
SELECTION OF MATERIALS

With ARTISAN Exterior Concrete Slab systems, YOU get to choose the look.

The ARTISAN concrete slab systems can be used to turn existing concrete into almost anything imaginable. Ideal for concrete patios, pool decks, walkways, steps, driveways and other spaces where a fresh new look is desired.

The systems and solutions can range from simple and understated to bold and creative. From simple broom textures to lively textured, patterned and colored works of art, existing concrete slabs can be transformed without the expense of tearing out. Each system lends itself to a desired finished appearance.
SUREBROOM: A just add water, self bonding, cement-based overlay system for exterior concrete slabs. Great for overlaying concrete with cosmetic imperfections, damage from deicers and other surface imperfections. Its high compressive strength is formulated for a variety of exposure levels and available in both gray and white cement mixes.

SCR Super Concrete Renovator: Combines three products in one; a strong detergent, degreaser, and acid to ensure proper cleaning and etching for concrete overlays, stains and sealers.*

SCT-22 Crack & Spall Treatment: A rapid setting, ultra low-viscosity urethane spall and crack treatment for concrete.

SUREBOND: Cement-based bonding agent used with Deep Patch and SureStamp as the bond/primer coat.

SURE STAMP: Single component, just add water stampable overlayment for replication of stamped and custom imprint designs.

SURESPRAY: A thin, sprayable overlay for use over stencils or tape to create a variety of designs and textures.

SURETEX: A medium build overlay-ment for creating knockdown and deeper grooved textures.

*Refer to International Concrete Repair Institute Guidelines for surface prep and profile numbers for your specific project, along with SureCrete Technical Data Sheets for each overlay products.

From subtle to exotic, SureCrete has a wide range of coloring and enhancing materials to personalize your overlay to look perfect no matter what design criteria is desired.

**ECO STAIN:** 30 semi-transparent water-based concentrate colors. Can be diluted up to 10:1 with water to create a wide range of color intensities. Additionally compatibility to combine colors for an unlimited color palette.

**HS 200:** A clear, 20% solids, silane based acrylic sealer for exterior concrete surfaces like driveways and sidewalks.

**HS 300:** A clear, 30% solids, high performance silane based acrylic sealer for exterior concrete overlays and cement-based products.

**ECO ACCENT:** Dry powder concentrate antiquing agent, when mixed with water can be used to enhance visual texture in stamped and textured surfaces.

**VIVID Stain:** Unlike other coloration methods, VIVID acid stain chemically reacts with the cement-based surface to create a mottled, variegated color that is one-of-a-kind. 11 standard colors can be used over both MICROTEK or SURESTAMP flooring systems.

For the ultimate in protective technology, apply one of our TK 290 series siloxane sealers. This will provide you with the ultimate in invisible water repellent technology with a non-color enhanced matte finish. A second optional step would to apply our HS 200/300 (left) where color enhancement and sheen are desired.
