SAFETY DATA SHEET

SECTION 1 Product and Company Identification

Product
Product Name: ColorTec 600WB Part B
Product Description: Curing Agent for Water Based Pigmented Epoxy / Part B
Intended Use: Cementitious sealer / catalyst

Company
Manufacturer: SureCrete Design Products, Inc.
15246 Citrus Country Drive
Dade City, FL 33523
USA
Contact: 1-352-567-7973 (telephone general)
1-800-262-8200 Chemtrec
+1 703-741-5500 Chemtrec International
info@surecretedesign.com (e-mail)
1-352-521-0973 (facsimile)

SECTION 2 Hazards Identification

Classification of substance or mixture:
GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)
- Acute toxicity: oral Category 4 H302
- Acute toxicity: dermal Category 4 H312
- Acute toxicity: inhalation Category 4 H332
- Skin corrosion/irritation Category 3 H315
- Serious eye damage/eye irritation Category 2B H319
- Skin sensitizer Category 1 H317

GHS Label Elements:
- Hazard Symbol:
  ![Hazard Symbol]
- Signal Word: Warning

Label Hazard Statements:
- H302: Harmful if swallowed.
- H312: Harmful in contact with skin.
- H315: Causes skin irritation.
- H317: May cause an allergic skin reaction.
- H319: Causes serious eye irritation.
- H332: Harmful if inhaled.
Label Precautionary Statements:
- P261: Avoid breathing dust/fumes/gas/mist/vapors/spray.
- P280: Wear protective gloves/clothing and eye/face protection.
- P271: Use only outdoors or in a well-ventilated area.
- P270: Do not eat, drink or smoke when using this product.
- P301+312+330: IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.
- P302+352: IF ON SKIN: Wash with plenty of soap and water.
- P304+340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
- P332+337+350+313: If skin/eyes irritation occurs, wash with plenty of soap and water and get medical advice/attention.
- P410+403: Store container tightly closed in well-ventilated place.
- P264: Wash hands thoroughly after handling.
- P314: Get Medical advice/attention if you feel unwell.
- P308+311: IF exposed or concerned: Call a POISON CENTER/doctor.
- P332+313: If skin irritation occurs: Get medical advice/attention.
- P273: Avoid release to the environment.

The exact percentage (concentration) of composition has been withheld as a trade secret.

SECTION 4 First Aid Measures

Inhalation: Remove to fresh air. Get medical attention if any discomfort continues.

Skin Contact: Remove contaminated clothing immediately and wash skin with soap and water. Get medical attention if any discomfort continues.

Eye Contact: Promptly wash eyes with plenty of water while lifting the eye lids. Make sure to remove any contact lenses from the eyes before rinsing. Continue to rinse for at least 15 minutes. Do not apply neutralizing agents. Get medical attention immediately. Continue to rinse.

Ingestion: Rinse nose, mouth and throat with water. Drink plenty of water. Do NOT induce vomiting. Get medical attention immediately!

Note to Physician: Treat symptomatically and supportively.
SECTION 5 Fire Fighting Measures
Appropriate Extinguishing Media: Foam, dry powder, carbon dioxide, water fog.

Inappropriate Extinguishing Media: High pressure water jet, which will spread fire.

Fire Fighting Instructions: Wear self-contained breathing apparatus. Wear protective equipment.

Unusual Fire Hazards: Formation of carbon oxides, toxic gases, and rupturing of vessels are possible during heating or in case of fire.

SECTION 6 Accidental Release Measures
Personal Precautions, Protective Equipment, Emergency Procedures: Isolate the area and prevent access of unauthorized personnel. Wear necessary personal protective equipment (PPE) as specified in the SDS or the site emergency response plan. Keep away ignition sources. Use spark-proof tools. Provide ventilation.

Methods and Materials for Containment and Clean-up: Control the source of the leak. Contain the released material by damming, diking, retaining, or diverting into an appropriate containment area. Move containers away from the spill area. Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust). Clean the affected area carefully; suitable cleaners are: Warm water. Dispose of as hazardous waste.

Environmental precautions: Do not allow to enter drainage system, surface or ground water.

SECTION 7 Handling and Storage
Handling: Do not use in confined spaces without adequate ventilation and/or respirator. Keep away from heat, sparks and open flame. Use grounded equipment. Avoid inhalation of vapors/spray and contact with skin and eyes.

Storage: Keep away from food and drink. Store in tightly closed original container in a dry, cool and well-ventilated place. Protect from light, including direct sunrays. Suitable containers: mild steel, stainless steel. Unsuitable containers: aluminum, copper.

Incompatibilities: Strong oxidizing substances. Strong acids.

SECTION 8 Exposure Control / Personal Protection
Engineering controls: Ensure for good ventilation/suction.

Exposure limit values: 2-butoxyethanol (CAS 111-76-2)

### Consumer Oral Short Term
- **DNEL**: 13.4 mg/kg/day

### Consumer Dermal Long Term
- **DNEL**: 38 mg/kg/day

### Consumer Inhalation Long Term
- **DNEL**: 49 mg/m³

### Freshwater
- **PNEC**: 8.8 mg/l

### Marine water
- **PNEC**: 0.88 mg/l

### Sediment Freshwater
- **PNEC**: 8.14 mg/kg

### Soil
- **PNEC**: 2.8 mg/kg

### STP
- **PNEC**: 463 mg/l

**Engineering controls:** Ensure for good ventilation/suction. An emergency eye wash/shower must be readily accessible to the work area.

**Personal protection equipment:**
- **Respiratory protection:** Suitable breathing mask when there is inadequate ventilation.
- **Hand protection:** Suitable protective gloves, glove material has to be impermeable and resistant to the product.
- **Eye protection:** When directly handling liquid product, eye protection is required. Examples of eye protection include a chemical safety goggle, or chemical safety goggle in combination with a full face shield when there is a greater risk of splash.
- **Skin and body protection:** Avoid all skin contact. Depending on the conditions of use, cover as much of the exposed skin area as possible with appropriate clothing to prevent skin contact. Gloves, long sleeved shirts and pants.

### SECTION 9 Physical and Chemical Properties

#### General
- **Appearance:** Liquid
- **Color:** Yellowish
- **Odor:** Mild

#### Safety Data
- **pH:** No data available
- **Melting point:** No data available
- **Boiling point:** Not available
- **Flash point:** >67 °C / 148 °F
- **Evaporation rate:** Not available
- **Flammability (solid, gas):** Not available
- **Explosive limits:** Not available
- **Vapor pressure:** Not available
- **Vapor density:** Not available
- **Relative density:** Not available
- **Solubility(ies):** Practically insoluble in water
- **Partition coefficient:** Not available
- **Auto-ignition temperature:** Not available
- **Decomposition temperature:** Not available
- **Viscosity:** Not available
SECTION 10 Stability and Reactivity
Stability: Stable under normal conditions.

Reactivity: Stable under normal conditions.

Conditions to avoid: Avoid static electricity discharge. Heat and flames and other sources of ignition.

Materials to avoid: Strong acid, strong base, strong oxidizer and amines.

Hazardous decomposition products: In fire, carbon oxides and toxic fumes may be generated.

SECTION 11 Toxicological Information
Route of Exposure: Not available

Potential acute health effects
   Eye contact: Irritation of eyes and mucous membranes.
   Inhalation: Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness; nausea or vomiting; headache; unconsciousness
   Skin contact: Skin irritation.
   Ingestion: May cause nausea, headache, dizziness and intoxication. Central nervous system depression. Metallic taste.

SECTION 13 Disposal Considerations
Disposal instructions: Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14 Transport Information
Product is only regulated for bulk shipments in North America
- UN number: NA1993
- UN proper shipping name: Combustible Liquid N.O.S. (Ethylene Glycol Monobutyl Ether)
- Class: 3
- Packing group: III
- Marine Pollutant: No
- Labels & Placards: COMBUSTIBLE

IATA: not regulated
IMDG: not regulated

SECTION 15 Regulatory Information
US federal regulations:
- TSCA: 2-butoxyethanol (CAS# 111-76-2) is listed on the TSCA inventory.
- OSHA: None of the chemicals in this product are considered highly hazardous by OSHA.

State Right-To-Know Information
The following chemicals are specifically listed by individual states; other product specific health and safety data in other sections of the SDS may also be applicable for state requirements. For details on your regulatory requirements you should contact the appropriate agency in your state.

California, New Jersey, Florida, Pennsylvania, Minnesota, Massachusetts Right to Know Substance List:
2-butoxyethanol (CAS# 111-76-2)

SECTION 16 Other Information
Recommended restriction: for use by trained professionals, having read the complete SDS

To the best of our knowledge the information contained here is accurate. However, neither the above named manufacturer nor any of its distributors assumes any liability whatsoever for the accuracy or the completeness of the information contained herein. Final determination of the suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
