LEARN DIRECTLY FROM THE PROS

This free event will give you first-hand experience in the product selection, application and protection of your decorative concrete surfaces.

We will be using a range of products including: Microtec, SureStamp, SureSpray, Eco Stain, and Precast during our hands on training.

FEATURED SYSTEMS - XS Precast Systems, Overlays, Eco Stain.

ECO STAIN

A liquid semi-transparent water-based concrete stain for accent coloring that can be sprayed, brushed rolled or even sponged. Used for staining concrete floors and walls including overlays and cast concrete products.

XS PRECAST

Pourable, high early strength concrete casting mix that can be used to create textures such as solid color, veining, travertine, pressed and sandstone. Available in white and gray cement bases.

SURE SPRAY

The most versatile self-bonding, thin overlay. Designed to resurface and texture interior floors and exterior concrete surfaces. Available in "ST" for hot weather climates.
